

SME/MSME Council

WICCI

About Council: Aims & Goals

We are a group of women with varied skills and knowledge sector who are either running MSME registered businesses or aspire to run business which are categorized as micro, small or medium enterprises. In this council, we will be building a strong ecosystem and network of women from various fields and sectors of industries who will collate information from MSME (Micro, Small and Medium Enterprises) Ministry and other related Departments of Government of India that are running schemes and making plans targeted towards such industries in MSME Sector.

As a council, our first initiative would be to gather information about MSME Ministry and to have all the information collated into a single compiled document. In our endeavours, we will empower women with the right information. Our one of the first goals is to make young, aspiring women aware about the policies, schemes, advantages and disadvantages of MSMEs. Being, a MSME women entrepreneur many of us do not have the luxury to appoint a person who will scout the available information which could be about some new policies or new business opportunities.

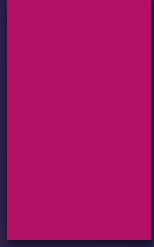

Our council, will educate, inform, run awareness campaigns, and make women empowered to become a successful entrepreneur of micro, small and medium sector. We will work to make this council useful for the policy makers, academicians, and public at large who will also find our team most approachable.
