NAINA SINGH

PRESIDENT, Delhi Digital Design Council WICCI

I am currently a third year student in Delhi University. I am deeply invested in promoting young entrepreneurs and fostering an environment of entrepreneurship in college campuses and universities. Entrepreneurship is important for a number of reasons, from promoting social change to driving innovation. Great entrepreneurs have the ability to change the way we live and work, on local and global bases. If successful, their innovations may improve standards of living, and in addition to creating wealth with entrepreneurial ventures, they also create jobs and contribute to a growing economy. I believe that we are in need for more and more female leaders and entrepreneurs and being a part of WICCI would assist me in my journey to become a successful woman entrepreneur.

PRACHI

COUNCIL MEMBER, Delhi Digital Design Council WICCI

Myself Prachi, I'm currently pursuing B.A. hons in Economics from University of Delhi. From the very beginning my inclination was towards service to this society in whichever way I could. I believe that this life itself is a big opportunity for all of us and on our part we should always believe in giving back . I like reading, writing , and working on various social projects where I can look for solutions to people's problems existing in society. My mantra of life is be kind and be wired to empathy with a holistic dimension of life . The very first thing for joining WICCI is that it's a women's forum. Realising the fact that I'm a small town girl , grown up with all the narrow minded thinking of people towards females , I always wanted to fly high. I don't want to limit my boundaries anyway and WICCI is a platform for all the women in our society . I really wish to be a changemaker in anyway I could and working for an organisation like this is a proud moment indeed
