COUNCIL MEMBER, (SOMYA STUTI)COUNCIL
WICCI

An advocate by profession, currently working as an inhouse counsel for an electricity distribution licensee, I strongly believe in the notion of 'Women for Women', "When women support each other, incredible things happen." In a society where 50% of its population does not get a platform to voice their opinion, each voice counts.

With an aim to thrive towards an equal society for all genders, my little experience to give back to the society in form of my associations with some NGOs working towards the same end or raising my voice for the downtrodden in form of articles and research papers may be enough to mirror my aim for a better vision and aim for a better and equal tomorrow.

Education is an important issue in one's life and when we talk about education its an era where one can think and feel the way they want to contribute in their success. It is my privilege to be an educationist as they play a major role in the field of education they give a shape, a character, growth towards the development of our nation. Also when we talk about career it's really difficult for students to choose their career due to plenty of reasons so as being a Career counselor it feels great to guide them and let them select the right path and achieve their goals.
