Council Vision & Mission

Babies are the Buds of life, ready to bloom like a fresh flower to refresh Humanity- Debasis Mridha

We strongly believe in the above mentioned profound quote by Debasis Mridha.

As we progress in the project, we would like to create a campaign for engaging more ladies across Maharashtra. We have a plan to approach medical councils, women welfare groups so that our pilot project can be converted into first Maharashtra based Program and then reach at national levels. We will educate more and more women to run the program in their own localities with the help of local health workers, volunteers, nursing homes, doctors.

As said in one of surveys above, India plans to reach a child survival target of 25 or less under-5 deaths and 12 or less neonatal deaths per 1,000 live births by 2030 in Sustainable Development. So we feel that if with our humble efforts we can help in achieving this target at national level then it would be the humble contribution from our council.
